

Traffic and Safety

Drop-Off Rules

- **DO:**
 - Place your child's belongings in the car (on seats or floor), not the trunk.
 - Turn off cell phone.
 - Enter campus from Southbound Lanai Road only. Keep to the right so through traffic may pass on the street. Stay to the right of the orange cones as you enter the driveway and throughout the drop-off zone.
 - Follow traffic monitor instructions.
 - Put your car in park or put on emergency brake when children are exiting.
 - Stay in your car. A traffic monitor will assist your child out of your car. Traffic monitors can also get backpacks, lunchboxes, instruments, etc. out of your car.
 - Drive slowly. Watch for merging traffic to your left as you exit the drop-off zone.
 - Check for oncoming traffic on Lanai Road before exiting. Traffic monitor at exit is responsible for controlling pedestrian traffic only, not automobile traffic.
 - Provide a good example for your child – always follow the rules and be courteous to volunteers, staff, neighbors and other parents.

- **DO NOT:**
 - Do not use cell phone while in the drop off line.
 - Do not open driver door or exit car at any time.
 - Do not block crosswalks.
 - Do not ask traffic monitors to take your packages onto campus. Monitors must remain in the line to ensure the safety of all children. Monitors may unload your packages and leave them at the front steps; you can then park your car on the street and walk back to school to carry your items to the office or your child's classroom.

Your children are watching. Breaking the rules may result in revocation of permission to use the morning drop-off service.
